
Appeal for Humanitarian Support for an Ex-cadet

This is to inform you that Architect Reza Rashid, an ex Cadet of JCC, has been diagnosed with ***Embrynal Carcinoma involving superior and medistanum***. This is a rare type of cancer. Doctors here suggested him for the treatment in overseas hospitals immediately. We all know cancer treatment in any overseas hospital is very costly. Therefore, now he has been burdened with a huge financial crisis for the treatment of this life threatening deadly disease and this is the time when Reza is in dire need of our support.

Reza is the man who is a great human being, a great friend, a wonderful husband and a great father of an eight years old daughter and has a heart of gold. Reza's family used to be a happy family like all others until this insidious disease popped in Reza.

This journey against cancer has already left the family drained emotionally, mentally, spiritually and financially. We believe this journey is a journey of hope. Financial help from everyone may help the family sail through these rough waters. A little compassion in your hearts may bring back this father to his child, may bring back the smiles on a little child's face. A little support from you may convey comfort, peace, hope and love for a family fighting the wrath of the disease.

We fervently request and hope you will stand beside Reza with financial support, and with your prayers for Reza's recovery.

Those willing to help ex cadet Reza in bearing the high cost of his treatment are requested to send the contribution to the following account:

Acct Name (Rashid's Wife): Shayka Imam Shanta
Acct No: 2101205768001
City Bank Limited
